

Risk Disclaimer Policy

Canadian Capital Markets's Risk Disclaimer Policy ("Policy") is designed to inform users ("User" or "Users") of the inherent risks associated with trading on the forex and cryptocurrency platform ("Platform"). By accessing and using the Platform, Users acknowledge and accept the following risks.

1. Market Risks:

The forex and cryptocurrency markets are subject to fluctuations that can result in significant financial losses. Users should be aware that market conditions may change rapidly, and the value of currencies or cryptocurrencies can be highly volatile.

2. Leverage Risks:

The use of leverage amplifies both potential gains and losses. While leverage can enhance profits, it also exposes Users to the risk of losing more than their initial investment. Users should carefully manage and consider the impact of leverage on their trading positions.

3. Liquidity Risks:

Market liquidity can vary, affecting the ability to execute trades at desired prices. In times of low liquidity, Users may experience slippage, where the executed price differs from the expected price, potentially leading to financial losses.

4. Regulatory Risks:

The regulatory environment for forex and cryptocurrency trading is dynamic and subject to change. Users should be aware of and comply with relevant regulations in their jurisdiction, as non-compliance may result in legal consequences.

5. Technology Risks:

The Platform relies on technology that may be susceptible to disruptions, including system failures, network issues, and cyber-attacks. Users should be aware of the potential for interruptions to trading activities and take necessary precautions to secure their accounts.

6. Counterparty Risks:

Trading involves counterparties, and Users should be aware of the credit risk associated with the entities they transact with. The financial stability and reliability of counterparties can impact the ability to execute trades and withdraw funds.

7. Political and Economic Risks:

Political events, economic indicators, and geopolitical developments can influence market conditions. Users should consider the potential impact of such factors on their trading positions and be prepared for unforeseen events.

8. Past Performance Is Not Indicative of Future Results:

Past performance is not a guarantee of future results. Users should exercise caution when relying on historical performance data and understand that market conditions may change, leading to different outcomes.

Disclaimer:

Trading on the Platform involves significant risks, and Users should only trade with funds they can afford to lose. It is advisable for Users to seek independent financial advice and fully understand the risks associated with forex and cryptocurrency trading before engaging in any transactions on the Platform.

By accessing and using the Platform, Users acknowledge that they have read, understood, and accepted the risks outlined in this Policy. The Platform shall not be held liable for any losses or damages arising from Users' trading activities.

This Policy may be updated periodically, and Users are encouraged to review it regularly to stay informed of any changes.
